What proposed projects from the presentation tonight do you support as a part of a proposed zero (0) mill increase bond proposition?

<p>Updated buildings; especially at the elementary level, provide additional classroom space, address bussing needs, and complete the operations and maintenance needs.</p>	<p>Improving traffic flow around the main campus would be beneficial to those traveling on Pontaluna.</p>	<p>Follow the plan that was established by the Board years ago; Be open and transparent with the community as you have been.</p>
<p>Expanding early childhood programs; many programs have long waitlists.</p>	<p>Needs within the facility assessment such as roofs, doors, windows, HVAC systems, boilers, flooring, furniture, etc,</p>	<p>Updated furniture in all of the buildings and updated playground spaces at Beach and Shettler</p>

What proposed projects from the presentation tonight do you oppose as a part of a proposed zero (0) mill increase bond proposition?

<p>Wonder about the design of the new elementary; does the building have to take on the “H” shape; Is that the most efficient use of the space?</p>	<p>Is the site plan too congested? Is the elementary going to be built too close to the high school?</p>	<p>Make sure that the Early Childhood Center prioritizes in district families when accounting for growth and expansion.</p>
<p>Is the Edgewood building being built large enough?</p>		

What are the top three (3) to five (5) priority areas that the Board of Education should focus on with a zero (0) mill increase bond proposition, should it decide to proceed forward?

Build a new Edgewood Elementary	Increase classroom spaces across the District to account for growth	Soccer complex upgrades; upgrade other outdoor athletic complexes also.
Bussing and transportation
