

## Kindergarten Screening

As part of the kindergarten enrollment process, Fruitport Community Schools administers a brief screener to the incoming kindergarten students. The screener will cover topics such as cutting, letter-sound relationship, vocabulary, number recognition, as well as other pre-kindergarten skills. The screener will take approximately 30 minutes. The assessment is NOT going to determine if your child can attend kindergarten. The results of the screener will be used to create balanced classrooms as well as determine if your child may benefit from our transitional kindergarten classroom (TK).

Please complete the form below to indicate the best time for us to screen your child. A mailing will go out at the beginning of June to let you know the exact time and location of your child's screening.

If you have a child that attends a Fruitport preschool program (GSRP, Head Start, Child's World Preschool or ECC Childcare), there is an option to have your child screened during the time he or she is in class. If that is your preference, please indicate that below.
